The House Appropriations Committee will hold its markup of the Interior-Environment spending bill on Tuesday, July 9, 2024 and the THUD spending bill on Wednesday, July 10, 2024. The full chamber will then consider both measures later this summer.

Over in the upper chamber, the Senate Appropriations Committee intends to hold markups on its FY 2025 spending bills this month. We expect Committee Chair Patty Murray to announce the markup schedule imminently. Traditionally, the Committee has announced Congressionally Directed Spending (CDS) requests from Senators selected for inclusion in those spending bills following the conclusion of the relevant Subcommittee markup.

As a reminder, for CPF and CDS funding to be enacted, lawmakers must reconcile each spending bill with the equivalent bill considered and passed in both chambers and include project allocations in any eventual bicameral full-year agreement. That agreement must then be passed by both chambers and signed by the President into law. We will be sure to keep you updated along each step in the legislative process.
